

PABASARA MEEGAHAKUMBURA

DevOps Engineer | Site Reliability Engineer | Platform Engineer | Cloud Engineer | DevSecOps
Linux Administration | Support | Cloud & Platform Operations

Panadura, Sri Lanka | +94 70 131 5700 | prpabasara512@gmail.com | linkedin.com/in/pabasara-meegahakumbura

PROFESSIONAL SUMMARY

- DevOps & IT Operations Engineer with hands-on experience across AWS, GCP, Kubernetes, Terraform, CI/CD, Linux administration, observability, hosting platforms, and production support.
- Strong background in operating cloud, Kubernetes, server, and web-hosting environments, improving reliability through monitoring, alerting, logging, runbooks, automation, secure configuration, incident response, patching, backups, and hardening.
- Disciplined and detail-oriented professional who listens actively, communicates clearly, and approaches technical work with ownership, care, and continuous improvement.

CORE TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, RDS, EKS, VPC, CloudWatch, ELB/ALB, Auto Scaling, EBS, snapshots/backups); GCP (Compute Engine/VMs, GKE, Cloud SQL, Cloud Storage, snapshots/backups, Cloud Build, Cloud Deploy, Source Repositories, Cloud Monitoring, Billing, gcloud); Azure basic/testing (AKS, VMs, Storage).

Hosting & Cloud Administration: Liquid Web, YoHost, WHM/cPanel, WordPress server-side administration, Cloudflare administration, Microsoft 365 Business Basic, Google Workspace/G Suite Admin, BTCPay Server.

Cloud & DNS Administration: DNS, SSL/TLS, A/CNAME/MX/TXT records, mail server configuration, email deliverability records, SPF/DKIM/DMARC.

Containers & Platform: Kubernetes, GKE, EKS, AKS testing, Docker, Linux, on-prem server administration, VMware ESXi/vSphere, VM administration.

CI/CD & Version Control: GitLab CI, Jenkins, Git, GitLab, Bitbucket, Cloud Build, Cloud Deploy.

Infrastructure as Code & Automation: Terraform, Bash/Shell, Python, PowerShell, repeatable provisioning, routine maintenance automation.

Observability & Incident Support: Prometheus, Grafana, ELK/EFK, Datadog, CloudWatch, Cloud Monitoring, UptimeRobot, alerting, log analysis, triage.

Security & Configuration: IAM/RBAC, HashiCorp Vault, Consul, CrowdStrike, Linux hardening, endpoint security, firewall configuration/setup, WAF, WireGuard, SonicWall, FortiClient, FortiWeb administration.

Linux & Support Administration: Linux/on-prem server administration, patching, backups, hardening, troubleshooting, VMware ESXi/vSphere, VM administration, Active Directory, Office 365, Intune.

ITSM & Workflow Tools: Jira, Zoho, Zoho Flow, Freshdesk.

Databases: MongoDB, MySQL (operations/support).

PROFESSIONAL EXPERIENCE

We Make Platforms USA - Remote

DevOps Engineer | Nov 2025 - Present

- Manage GCP-focused cloud and server operations, including Compute Engine VMs, GKE, Cloud SQL, Cloud Storage, snapshots/backups, Cloud Build, Cloud Deploy, Cloud Monitoring, Billing, and gcloud-based administration.
- Administer WHM/cPanel and WordPress hosting environments, supporting 100+ websites from the server side across DNS, SSL/TLS, backups, uptime monitoring, migrations, and troubleshooting.
- Manage AWS resources, Liquid Web, YoHost, Cloudflare administration, Microsoft 365 Business Basic, and Google Workspace/G Suite Admin for business cloud operations.
- Configure and troubleshoot mail servers, domain records, and email deliverability controls including MX, TXT, SPF, DKIM, and DMARC.
- Configure BTCPay Server, a self-hosted open-source cryptocurrency payment processor, and support related Linux server maintenance and security checks.
- Configure WireGuard VPN, firewall rules, WAF controls, SonicWall, FortiClient, FortiWeb administration, and access/security settings where required.
- Use UptimeRobot, Cloud Monitoring, Prometheus/Grafana, logs, Jira, Zoho, and Zoho Flow to support incident response, ticket workflows, and operational follow-up.

Tech: GCP, Compute Engine, GKE, Cloud SQL, Cloud Storage, snapshots/backups, Cloud Build, Cloud Deploy, Cloud Monitoring, Billing, gcloud, AWS, Liquid Web, YoHost, WHM/cPanel, WordPress, Cloudflare, Microsoft 365 Business Basic, Google Workspace, BTCPay Server, WireGuard, WAF, SonicWall, FortiClient, FortiWeb, UptimeRobot, Linux, Jira, Zoho, Zoho Flow.

Zafer AI (formerly ZorroSign) - Nugegoda, Sri Lanka

DevOps & IT Operations Engineer | Aug 2024 - Dec 2025

- Operated AWS and Kubernetes infrastructure to support microservices deployments, stable releases, and day-to-day production reliability.
- Maintained and improved CI/CD pipelines using GitLab CI, Jenkins, Git, GitLab and Bitbucket, including standardized build, test, and deployment workflows.
- Implemented Infrastructure as Code with Terraform and automated Linux/operations tasks using Bash/Shell, with exposure to Python and PowerShell where required.
- Built monitoring and alerting with Prometheus and Grafana; used CloudWatch, Datadog, and log analysis to support visibility, triage, and incident response.
- Managed Cloudflare administration, DNS, SSL/TLS, routing, domain records, and email deliverability records including SPF, DKIM, and DMARC where required.
- Supported secure operations through IAM/RBAC, HashiCorp Vault, Consul, firewall/WAF administration, Linux patching, backups, hardening, CrowdStrike endpoint tooling, and runbook/SOP improvements.

Tech: AWS, Kubernetes, EKS, Docker, Terraform, GitLab CI, Jenkins, Git, Bitbucket, Prometheus, Grafana, ELK/EFK, Datadog, CloudWatch, Cloudflare, WAF, SonicWall, FortiClient, FortiWeb, Vault, Consul, Linux, Bash, Jira, Zoho.

ZorroSign Inc. - Nugegoda, Sri Lanka

Associate DevOps Engineer | Feb 2024 - Aug 2024

- Assisted with provisioning and maintaining Kubernetes environments for dev/test deployments and containerized workloads.
- Automated environment provisioning and routine maintenance using Bash/Shell scripts and Infrastructure as Code practices.
- Supported monitoring and logging pipelines using Prometheus and ELK Stack, assisting incident triage and system health validation.
- Produced and maintained documentation, SOPs, and runbooks for deployment workflows and operational procedures.

Tech: Kubernetes, Docker, Bash/Shell, Git, GitLab, Prometheus, ELK, Office 365, VMware ESXi/vSphere, VM administration.

ZorroSign Inc. - Nugegoda, Sri Lanka

Support Engineer (L0-L2) | Aug 2023 - Feb 2024

- Provided L0-L2 support for enterprise customers across cloud and on-prem environments, including server/VM administration support, with SLA-focused ticket handling and escalation.
- Managed tickets and workflows using Jira, Zoho, Freshdesk and Zoho Flow; supported timely communication, troubleshooting, and escalation.
- Diagnosed OS, application, access, DNS, email, and service issues using SSH/RDP and supported incident troubleshooting across customer environments.
- Configured SPF, DKIM, and DMARC records; monitored systems using Grafana, Prometheus, and ELK/EFK; wrote SOPs, KB articles, and recurring-issue playbooks.

Tech: Jira, Zoho, Zoho Flow, Freshdesk, Linux, Bash, Prometheus, Grafana, ELK/EFK, Office 365, Active Directory, SSH/RDP.

ZorroSign Inc. - Nugegoda, Sri Lanka

End User Support (EUS) Engineer | Feb 2023 - Aug 2023

- Supported users across Windows, Office 365, Teams, SharePoint, endpoint tools, hardware/software, and access-related issues.
- Administered Microsoft Intune, Active Directory, Office 365 and Google Workspace/G Suite Admin tasks for onboarding, offboarding, device compliance, licensing, and group-based access control.

Tech: Intune, Active Directory, Office 365, Google Workspace/G Suite Admin, Windows, AnyDesk/RDP.

Sri Lanka Ports Authority - Colombo, Sri Lanka

Trainee | Jun 2022 - Dec 2022

- Completed 6-month industrial training across Operations, Logistics, Security, and Navigation divisions; conducted projects on fuel usage/wastage and overtime impact on operational efficiency.

Tech: Operations analysis, reporting.

EDUCATION

MBA (Business Analytics), Cardiff Metropolitan University (UK) - 2024 - Present

Bachelor of Information Technology (BIT), University of Moratuwa - 2024 - Present

BSc Strategic Studies & International Relations, KDU - 2020 - 2023 | Second Upper

Open University of Sri Lanka: Certificate Course in Computer Network & Security (10 months); Certificate Course in Human Resource Management (06 months); Certificate Course in Digital Marketing (06 months); Certificate Course in Financial Accounting (06 months).

University of Colombo: Advanced Certificate in Human Rights & International Humanitarian Law - Distinction Pass

National Youth Services Council: Diploma in Psychology & Counseling - Merit Pass

CERTIFICATIONS

- AWS Certified Cloud Practitioner - University of Moratuwa
- Certified Kubernetes Administrator (CKA) - In progress (Linux Foundation)
